

OUT OF HOURS NOTICE - FLEMINGTON ROAD
GUNG AHLIN PLACE TO WELL STATION DRIVE INTERSECTION

23 TO 26 OCTOBER 2018

Canberra's first stage of Light Rail is progressing and construction is being finalised. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

Construction Works:

Rail grinding along Flemington Road between Gungahlin Place and Well Station Drive is scheduled to take place from **1:00pm to 9:00pm each day from Tuesday 23 October to Friday 26 October.**

Traffic Management and Detours:

There will be **no change** for traffic travelling northbound and southbound along Flemington Road during these works. Traffic management will be in place and highly visible throughout the works, including signage and personnel.

Additional Information:

The equipment to be used will include rail grinder, hand held blowers and light vehicles.

The project team will ensure the number of machines operating at the same time is limited and equipment turned off when not in use. Non-tonal reversing beepers will be used* and workers will be instructed to keep noise to a minimum.

These works are designed to transform Canberra, making it more accessible and to provide greater commuter connectivity across an integrated public transport network. We appreciate the continued patience of the public and the support of the Canberra community as we carry out these works.

More information can be found by visiting www.canberra-metro.com.au. If you have any questions in relation to works in your local area, please contact Canberra Metro:

Are you Rail Ready?

OVERHEAD WIRE INSTALLATION – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
