

Out of hours notice for Flemington Road:

Between Well Station Drive and the Federal Highway intersection

1 To 31 Jan 2019

Canberra's first stage of Light Rail is progressing and construction is nearing completion. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

Construction Works:

A number of out-of-hours construction activities are required to complete remaining light rail works on Flemington Road, between the Federal Highway and Well Station Drive. Some of the activities will include applying asphalt treatments to Flemington Road, kerb installation, landscaping, electrical work, signal and overhead wiring work and footpath removal and installation.

Traffic Management and Detours:

Road closures and lane reductions may be required. Updates on when these occur and their corresponding detours will be promoted on [Canberra Metro's website](#) and social media channels. Traffic management will be operational and highly visible throughout the works, including signage and personnel.

Additional Information:

The equipment to be used includes: a road roller, light vehicles, lighting towers, milling and asphalt laying equipment, line marking equipment, saw cutting equipment, compaction equipment, vacuum trucks, excavators, elevated working platforms and hydraulic hammers.

The project team will ensure the number of machines operating at the same time is limited and equipment turned off when not in use. Non-tonal reversing beepers will be used* and workers will be instructed to keep noise to a minimum.

These works are designed to transform Canberra, making it more accessible and to provide greater commuter connectivity across an integrated public transport network. We appreciate the continued patience of the public and the support of the Canberra community as we carry out these works.

More information can be found by visiting www.canberra-metro.com.au. If you have any questions in relation to works in your local area, please contact Canberra Metro:

Are you Rail Ready?

Traffic light patterns at intersections along the light rail route are changing as the light rail integrates with the road network. Please stay alert and pay close attention to traffic light signals. Do not run red lights. Please be patient and wait for the **green** light.

* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
