

**OUT OF HOURS NOTICE - NORTHBOURNE AVENUE  
ALINGA STREET TO MURDOCH STREET  
15 – 16 NOVEMBER 2018**

Canberra's first stage of Light Rail is progressing and construction is nearing completion. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

**Construction Works:**

Out-of-hours works are required for undertaking a short test to ensure the light rail vehicles (LRVs) can travel through the rail corridor safely. This work involves driving a motorised railcar mover down the tracks, between Murdoch Street and Alinga Street, as it carries a physical profile of an LRV to confirm that there are no obstacles in the way. Hours of work will be **8:00pm to 6:00am on Thursday 15 November and Friday 16 November.**

**Traffic Management:**

Intersections will be temporarily closed as the rail car mover briefly travels through the intersection. Traffic management will be operational and highly visible throughout the works, including signage and personnel.

**Additional Information:**

The equipment to be used includes light vehicles and the rail car mover.

The project team will ensure the number of machines operating at the same time is limited and equipment turned off when not in use. Non-tonal reversing beepers will be used\* and workers will be instructed to keep noise to a minimum.

***These works are designed to transform Canberra, making it more accessible and to provide greater commuter connectivity across an integrated public transport network. We appreciate the continued patience of the public and the support of the Canberra community as we carry out these works.***

More information can be found by visiting [www.canberra-metro.com.au](http://www.canberra-metro.com.au). If you have any questions in relation to works in your local area, please contact Canberra Metro:

**Are you Rail Ready?**

Traffic light patterns at intersections along the light rail route are changing as the light rail integrates with the road network. Please stay alert and pay close attention to traffic light signals. Do not run red lights. Please be patient and wait for the **green** light

\* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
