

OUT OF HOURS NOTICE - NORTHBOURNE AVENUE
LEFT SLIP LANE (SOUTHBOUND) INTO ANTILL STREET
13 - 16 JULY 2018

Canberra's first stage of Light Rail is progressing and construction is well underway. This is an exciting time in our City and Canberra Metro is working hard to see this vision come to life.

Construction Works:

The installation of electrical conduit for a red light camera needs to take place in the Northbourne Avenue left slip lane into Antill Street.

The hours of work will be from **8:00pm Friday 13 July to 4:00am Monday 16 July.**

Traffic Management and Detours:

The Mouat and Antill Streets intersection will operate as normal during these works except for vehicles seeking to turn left into Antill Street from Northbourne Avenue. During these works, ALL left turns will need to be made from the outside southbound lane.

Traffic management will be in place and highly visible throughout the works, including signage and personnel.

Additional Information:

Due to the nature of the work, some of the activities will be noisy. The project team will limit noise impacts wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use. Non-tonal reversing beepers will be used* and workers will be instructed to keep noise to a minimum.

Equipment to be used includes: excavator, hydrovac truck, concrete trucks, road compaction plant, asphalt paving equipment and trench rollers.

Thank you for your patience during these important works.

If you have any questions related to works in your local area or the wider project, please contact Canberra Metro:

Are you Rail Ready?

OVERHEAD WIRE INSTALLATION – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
