

OUT OF HOURS NOTICE - NORTHBOURNE AVENUE
BETWEEN MASSON-GIRRAHWEEN STREETS and MACARTHUR-WAKEFIELD
AVENUES

8 AUGUST TO 1 SEPTEMBER 2018

Canberra's first stage of Light Rail is progressing and construction is well underway. This is an exciting time in our City and Canberra Metro is working hard to see this vision come to life.

Construction Works:

Rail will be installed along Northbourne Avenue between the intersections of Masson-Girrahween Streets and Macarthur-Wakefield Avenues. Activities include welding of rail, moving and installation of rail lengths.

Work Schedule:

Over a four week period commencing 8 August 2018, the following northern rolling work schedule will apply up Northbourne Ave:

- Masson-Girrahween Streets and Northbourne Avenue intersection mid-block will be closed from **6 August for two weeks;**
- Following the re-opening of the Masson-Girrahween Streets and Northbourne Avenue intersection, the Condamine-Ipima Streets and Northbourne Ave mid-block will be closed for the remaining two weeks.

During this period there will be day works followed by Out-of-Hours works between **6:00pm to 6:00am.**

Traffic Management and Detours:

The following traffic conditions will apply during each intersection mid-block closure:

- ✓ Through traffic north and south along Northbourne Avenue will be permitted;
- ✓ Left turns into and out of Northbourne will be permitted;
- **No** right turns will be permitted from Northbourne into side streets during relevant mid-block closure ;
- **No** right turns permitted into Northbourne from relevant side streets;
- **No** through traffic permitted across Northbourne Avenue during relevant closure.

Traffic management will be in place and highly visible throughout the works, including signage and personnel.

Additional Information:

The equipment to be used includes; excavator, hand tools, lighting towers, light vehicles and trucks. Due to the nature of the work, some of the activities may be noisy.

The project team will limit noise impacts wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use. Non-tonal reversing beepers will be used* and workers will be instructed to keep noise to a minimum.

Thank you for your patience during these important works.

If you have any questions related to works in your local area or the wider project, please contact Canberra Metro:

Are you all Ready?

OVERHEAD WIRE INSTALLATION – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
