

**OUT OF HOURS NOTICE - NORTHBOURNE AVENUE  
WAKEFIELD-MACARTHUR AVENUES INTERSECTION  
Friday 7 September to Monday 24 September**

Canberra's first stage of Light Rail is progressing and construction is well underway. This is an exciting time in our City and Canberra Metro is working hard to see this vision come to life.

**Construction Works:**

Construction works need to be undertaken on Northbourne Avenue, at the Wakefield/Macarthur Avenues intersection. This includes:

- kerb and footpath installation
- traffic signal related works
- overhead wire and conduit installation

The hours of work will be completed in September including three consecutive weekends: 7 to 10 September, 14 to 17 September and 21 to 24 September. The hours of work are from **8:00pm to 4:00am**.

**Traffic Management and Detours:**

Traffic travelling northbound and southbound on Northbourne Avenue will not be affected by these construction works. However, there will be:

- restrictions for right turning traffic into Wakefield Avenue and Macarthur Avenue from Northbourne Avenue
- no access for through traffic along Wakefield and Macarthur Avenue across Northbourne Avenue during weekend.

There will be detours for all vehicle traffic. Traffic management will be in place and highly visible throughout the works, including signage and personnel.

**Additional Information:**

The equipment to be used includes road saws, excavators, hydrovac trucks, compactors, light vehicles and trucks. Due to the nature of the work, some of the activities will be noisy. The project team will limit noise impacts wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use. Non-tonal reversing beepers will be used\* and workers will be instructed to keep noise to a minimum.

***Thank you for your patience during these important works.***

**More Information:**

If you have any questions related to works in your local area or the wider project, please contact Canberra Metro:

- **Phone** 1300 208 824

**Are you Rail Ready?**

**OVERHEAD WIRE INSTALLATION** – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

\* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
