

## OUT OF HOURS NOTICE - NORTHBOURNE AVENUE

RUDD/BUNDA STREETS INTERSECTION

**2 TO 5 NOVEMBER 2018**

Canberra's first stage of Light Rail is progressing and construction is being finalised. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

### **Construction Works:**

New traffic signals are to be installed within the Rudd-Bunda Streets intersection along Northbourne Avenue. Hours of work will be **8:00pm Friday 2 November through to 6:00am Monday 5 November**.

### **Traffic Management:**

There will be **no change** for traffic travelling northbound and southbound along Northbourne Avenue during these intersection works.

Local detours and appropriate detour signs will be in place. These detours will also be promoted on Canberra Metro's website. Traffic management will be in place and highly visible throughout the works, including signage and personnel.

### **Additional Information:**

The equipment to be used includes: a truck-based crane, light vehicles and light towers.

The project team will ensure the number of machines operating at the same time is limited and equipment turned off when not in use. Non-tonal reversing beepers will be used\* and workers will be instructed to keep noise to a minimum.

***These works are designed to transform Canberra, making it more accessible and to provide greater commuter connectivity across an integrated public transport network. We appreciate the continued patience of the public and the support of the Canberra community as we carry out these works.***

More information can be found by visiting [www.canberra-metro.com.au](http://www.canberra-metro.com.au). If you have any questions in relation to works in your local area, please contact Canberra Metro:

**Are you Rail Ready?**

**OVERHEAD WIRE INSTALLATION** – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

\* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
