Traffic management will be in place and highly visible throughout the works, including road detours, signage and personnel.

Additional Information:

The equipment to be used includes road saw, excavator, vacuum truck, compaction roller, lighting towers and trucks.

Due to the nature of the work, some of the activity will be noisy. The project team will limit these impacts wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use. Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.

Thank you for your patience during these important works.
