

## OUT OF HOURS NOTICE - FLEMINGTON ROAD

GUNGAHLIN PLACE TO WELL STATION DRIVE INTERSECTION

**2 – 5 NOVEMBER 2018**

Canberra's first stage of Light Rail is progressing and construction is being finalised. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

### **Construction Works:**

Rail grinding in selected locations along Flemington Road, between Gungahlin Place and Well Station Drive is scheduled to continue from **6:00am to 6:00pm, Friday 2 to Monday 5 November**. This work is required during these hours to avoid conflicts with the light rail vehicle testing and commissioning program.

### **Traffic Management:**

There will be **no change** for traffic travelling northbound and southbound along Flemington Road during these works, however intersections on Flemington Road will be closed for short periods as the grinding vehicle passes through them.

Traffic management will be in place and highly visible throughout the works, including signage and personnel.

### **Additional Information:**

The equipment to be used will include rail grinder and light vehicles.

The project team will ensure the number of machines operating at the same time is limited and equipment turned off when not in use. Non-tonal reversing beepers will be used\* and workers will be instructed to keep noise to a minimum.

***These works are designed to transform Canberra, making it more accessible and to provide greater commuter connectivity across an integrated public transport network. We appreciate the continued patience of the public and the support of the Canberra community as we carry out these works.***

**Are you Rail Ready?**

**OVERHEAD WIRE INSTALLATION** – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

\* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
