

**OUT OF HOURS NOTICE – NORTHOURNE AVENUE**  
HINDER STREET  
**25 SEPTEMBER – 6 OCTOBER**

Canberra's first stage of Light Rail is progressing and construction is being finalised. This is an exciting time in our City and Canberra Metro is working hard for Light Rail services to commence.

**Construction Works:**

To ensure the Northbourne Avenue corridor is ready for light rail vehicle testing later next month, urgent out-of-hours works are required to transfer top soil from the site compound at Hinder Street, Gungahlin to the Northbourne Avenue median.

The work involves haulage trucks entering and leaving the site compound during these hours to collect soil loaded by a front-end loader.

**The hours of work are 8:00pm to 6:00am each night, from Tuesday 25 September to Saturday 6 October 2018.**

**NOTE:** No out-of-hours work will take place between Friday 28 September and Monday 1 October 2018.

**Traffic Management and Detours:**

There are no changes to local traffic conditions during these works.

**Additional Information:**

The equipment to be used will include haulage trucks and a front-end loader.

Due to the nature of the work, some of the activity will be noisy. The project team will limit these impacts wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use. Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.

***Thank you for your patience during these important works.***

If you have any questions related to works in your local area or the wider project, please contact Canberra Metro:

**Are you Rail Ready?**

**OVERHEAD WIRE INSTALLATION** – The overhead wire is LIVE and carries 750 volts of power. It will cause fatal injuries if touched. Keep away! Download a fact sheet including safety tips.

\* Except for elevated work platforms which are required by safety regulations to have tonal beepers.
